

Southwest Research Institute (SwRI) is seeking highly motivated individuals who desire to work outside of the continental United States (OCONUS) in Science and Technology projects that provide training and research support in a program sponsored by the Defense Threat Reduction Agency of the U.S. Department of Defense. SwRI will be working as a subcontractor to URSFSI.

These positions require an advanced degree (MS or above including DVM, MD, Ph.D) with experience in training scientists or in developing research related to pathogens of human and veterinary health concerns. The positions will be in the Pacific Area of Responsibility (i.e., PACOM). Selected individuals will be expected to work in-country for extended periods. The compensation will include a base salary and uplifts approved by the US Department of State. Funding of this program is expected during the fall of 2016. If you are interested, please submit your resume and a consent letter to:
